

# BIOCIDAL PRODUCTS WORKSHOP: From Regulation to Market

5<sup>th</sup> May, 2022  
Online event

This one-day workshop will focus on the key challenges of placing biocidal products on the EU market, providing practical insights on how to achieve compliance. It is especially relevant for SMEs and contract manufacturers operating in this area.

Attendees will gain a good understanding of the BPR legal requirements, obligations of suppliers of active substances and biocidal products, timelines and data requirements for product dossier applications, options available to gain market entrance and product labelling.

The event will be conducted in English by INFOTOX experienced staff as well as experts from industry.

### PROGRAM

- Introduction to the BPR
- Placing biocidal products on the market
- Transitional period registrations in the EU
- BPR product authorisation
- Data Requirements
- Product Labelling
- Case study 1: Same biocidal product authorisation
- Case Study 2: Keeping biocidal products in the EU & UK markets
- Questions & Discussion
